OBJECTIVE

Seeking an opportunity as a Network Security / Firewall Engineer where I can apply my knowledge of TCP/IP, Routing & Switching, Firewalls, VPN, NAT, ACLs and VAPT while continuously enhancing my practical skills in enterprise network security.

SKILLS

- **Networking:** TCP/IP, OSI Model, IPv4 Addressing, Subnetting, VLAN, Inter-VLAN Routing, Static Routing, OSPF, STP, EtherChannel, DHCP, DNS, NAT, ACL, SSH, Port Security, Cisco Packet Tracer.
- **Network Security:** Firewall Fundamentals, Stateful Firewall, Packet Filtering, Basic VPN Concepts, Network Segmentation, Basic Security Policies.
- **Linux:** User Management, File Permissions, Networking Commands, SSH, Bash Basics.
- **Cybersecurity & VAPT:** Vulnerability Assessment & Penetration Testing (VAPT), OWASP Top 10, SQL Injection, XSS, XXE, Burp Suite, Metasploit, Nessus, Nmap, Wireshark
- **Systems & Platforms:** Linux Administration, Kali Linux, Firewalls, Windows Environment
- **Programming & Development:** Python, PHP, Bash, Dart (Flutter Basics)
- **Mobile Security:** Android App Hardening, Code Obfuscation, DRM Implementation, Device Binding
- **Soft Skills:** Communication Skills, Problem Solving, Team Collaboration, Technical Documentation, Fast Learner

PROJECT

- **Enterprise Network Design using Cisco Packet Tracer**
 - Designed a secure enterprise network.
 - Configured VLANs and Inter-VLAN Routing.
 - Implemented Static Routing and Basic OSPF.
 - Configured DHCP, NAT and ACL.
 - Performed network connectivity testing and troubleshooting.
- **Network Traffic Analysis using Wireshark**
 - Captured and analyzed TCP, UDP, ICMP, DNS and HTTP packets.
 - Studied TCP Three-Way Handshake.
 - Performed basic packet analysis and troubleshooting.
- **OWASP Top 10 VAPT Reports**
 - Performed vulnerability assessment on lab applications.
 - Prepared detailed vulnerability reports with remediation recommendations.
- **Engineering Express – Educational Mobile & Web Application**
 - Developed a role-based educational application for engineering students using Flutter.
 - Implemented authentication, digital notes management, PDF viewing, and secure content access.
 - Integrated backend services for user management, data storage, and note delivery.
 - Focused on application security features such as device binding, protected PDF access, and basic DRM concepts.

DISTINCTIONS AND HONORS

- Completed 100+ TryHackMe labs covering Networking, Enumeration, Web Security, Linux and Packet Analysis.
 - Solved 50+ PortSwigger Web Security Academy labs including SQL Injection, XSS, Authentication, Access Control.
 - Prepared VAPT reports based on OWASP Top 10 vulnerabilities with remediation recommendations.
 - Currently learning CCNA fundamentals through Cisco Networking Academy.
 - Built multiple networking labs using Cisco Packet Tracer.
 - Practicing network troubleshooting using Wireshark and Packet Tracer.
 - Active member of Cybersecurity Club and Technical Workshop Community.
 - Regularly participate in cybersecurity workshops and hands-on networking labs.
-

EDUCATION

- Bachelor of Technology (B.Tech) in Computer Science & Engineering** 2022 – 2026
Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh
Completed: 2022 – 2026
 - Industrial Training Institute (ITI) – Electronics Mechanic** 2018 – 2020
Government Industrial Training Institute, Kharkhauda, Meerut, Uttar Pradesh
Completed: 2018 – 2020
 - Senior Secondary (12th)** 2017 – 2018
Tagore Shiksha Sadan, Hapur, Uttar Pradesh
Completed: 2018 | UP Board
 - Secondary (10th)** 2015 – 2016
Shanti Swarup Krishi Inter College, Hapur, Uttar Pradesh
Completed: 2016 | UP Board
-

INTERNSHIP & WORK EXPERIENCE

- Cyber Security Intern | Codec Technologies Pvt. Ltd.** Oct 2025 – Jan 2026 | Hybrid / India
 - Completed a 3-month AICTE & ICAC approved Cyber Security internship.
 - Worked on security concepts, VAPT reporting and basic network traffic analysis using Wireshark.
 - Network Security Intern | ITPF Technology Private Limited** Mar 2025 – Jun 2025
 - Worked on “Design and Analysis of TAXNET Network”.
 - Worked with routing, switching, basic network infrastructure and network security concepts.
 - Networking & CCNA Practice | Self Learning**
 - Building enterprise network topologies using Cisco Packet Tracer.
 - Practicing TCP/IP, Subnetting, VLANs, Inter-VLAN Routing, Static Routing, DHCP, NAT, ACL and SSH.
 - Learning basic OSPF routing and network troubleshooting.
 - Volunteered at CyberPeace Dialogue Event** Dec 2024 | IIIT Delhi
 - Participated in cybersecurity awareness activities, technical sessions, and collaborative events.
 - Hands-on with TryHackMe & PortSwigger Labs**
 - Completed practical labs focused on Networking, Linux, Enumeration, Web Security and Packet Analysis.
-

CERTIFICATIONS & LAB’S

- Cyber Security Internship** – Codec Technologies Pvt. Ltd. (AICTE Approved) | Jan 2026
- Ethical Hacker Course** – Cisco Networking Academy | Ongoing
- Tutored course & Certificate** – Ethical Hacking | Cloud Computing | System Design
- Introduction to Networks (CCNA Fundamentals)** – Cisco Networking Academy | In Progress
- Cisco Packet Tracer Networking Labs** | Ongoing
- Cybersecurity Essentials** – Cisco Networking Academy | Ongoing
- Practical Ethical Hacking** – TCM Security | In Progress
- Cybersecurity Analyst Job Simulation** – Tata (Forage)
- Cyber Job Simulation** – Deloitte (Forage)
